Global Innovation Accelerator
Pioneers’ Profiles
Innovation Team – December 2016
MEET OUR 2017 PIONEERS!

Abdulkadir Mohamud
KENYA RED CROSS SOCIETY
ICT MANAGER-INFRASTRUCTURE
REGION AFRICA
KENYA RED CROSS SOCIETY

Why he decided to become a Pioneer?
Abdulkadir joined the Pioneers to further his goal of closing the gap between communities and the organization. He wants to implement new approaches to address serious disasters in his community, and to find new ways to utilise technology to improve dialogue with communities.

His ideas:
His project will upgrade the existing fire alarm system utilizing solar panels to charge them and re-program them to make them more efficient. Furthermore, he wants to develop an SMS-based system to get in touch with the communities saving resources and improving community input.

Adnan Khan
DISASTER PREPAREDNESS MANAGER
REGION ASIA
PAKISTAN RED CRESCENT

Why he decided to become a Pioneer?
Adnan is committed to youth empowerment. Through the use of technology, he wants to address disaster preparedness and make disaster response more efficient.

Idea: EWS Without Boarder
Mobile phone early warning system which monitors different threats, seeking to improve the efficiency of humanitarian response as well as encouraging better disaster preparedness.

Allessandro Fedele
UNIT MANAGER, PARTNERSHIP AND RESOURCE DEVELOPMENT
REGION EUROPE
INTERNATIONAL FEDERATION

Why he decided to become a Pioneer?
Allessandro wants to develop projects to substantially raise income and build brand awareness at the same time.

Idea: Red Water
The idea is to turn bottled-water business into a charity opportunity. The model will be supported by a global partnership with bottled water producer’s around the world.

Anna Gevorgyan
EUROPEAN YOUTH COMMITTEE COORDINATION
REGION EUROPE
ARMENIAN RED CROSS SOCIETY

Why she decided to become a Pioneer?
Anna is the organizer of social innovation projects and Start-up Acceleration programs. She is actively looking to improve and apply her ideas in real situations.

Some of her ideas:
Healthy lifestyle promotion supported by film projection with static bicycle energy; gaming techniques to spread awareness about Armenia’s refugees; creativity workshops with communities to seek new solutions.

Why he decided to become a Pioneer?
Kelvin is now leading a five-member youth group that develops IT, communication and design tools. With all the coaching Kelvin will receive as a Pioneer, he will continue to develop and scale his ideas.

Idea: iVolunteers
Njenga created an automatic system to manage volunteer networks in the region. He wants to develop a knowledge tool in order to share their results and ideas internally, but also as an external advertising instrument to encourage people to join and support.

REGION
AFRICA
KENYA RED CROSS SOCIETY

Why she decided to become a Pioneer?
Jaclyn is a passionate and creative staff member, proficient in IT and Emergency Tools. She launched the CRC Innovations Roundtable and is eager to craft new solutions to address major problems around the world.

Some of her ideas:
Virtual reality training course, participatory mapping with remote communities, reusable mosquito traps, unmanned aerial vehicles to transport medical equipment, and 3D printing to produce customized medical equipment.

REGION
AMERICAS
THE CANADIAN RED CROSS SOCIETY

Why he decided to become a Pioneer?
Kelvin is now leading a five-member youth group that develops IT, communication and design tools. With all the coaching Kelvin will receive as a Pioneer, he will continue to develop and scale his ideas.

Idea: iVolunteers
Njenga created an automatic system to manage volunteer networks in the region. He wants to develop a knowledge tool in order to share their results and ideas internally, but also as an external advertising instrument to encourage people to join and support.

REGION
AFRICA
KENYA RED CROSS SOCIETY

Why he decided to become a Pioneer?
Khadar has always been aware of the advantages of having professional people working as volunteers, thus his commitment is to increase the number of highly-prepared members in the national society.

Idea: Attracting High-skill Volunteers
This project will not only inspire well-prepared professionals to join the Red Crescent, but retain them and expand their abilities. In order to complete this task, a standardized innovative management system is required, enabling volunteers to take part in different departments inside the organization.

REGION
AFRICA
SOMALI RED CRESCENT SOCIETY

Why she decided to become a Pioneer?
Kit is a highly-driven and passionate university student. One of Kit’s major desires is to raise awareness about refugees and asylum seekers in the UK.

Some of her ideas:
‘Refugee Starter Guide’ that covers useful information and practical advice printed in several languages. Moreover, she is planning a ‘Skill Sessions’ to motivate collaboration between volunteers and refugees, where both can learn and apply new skills.

REGION
EUROPE
BRITISH RED CROSS VOLUNTEER
**Lucia Taboada**

Why she decided to become a Pioneer?
Lucia is helping with implementation of the livelihood component of the integrated recovery and resilience program. Her task is to support the NRCS in resource mobilization and coordination.

Some of her ideas:
Lucia’s project would explore creating tools to close the gap between markets and livelihood activities. The idea is to connect local traders with farmers, using intelligent data-base and mobile applications.

**Luke Tredget**

Why he decided to become a Pioneer?
Luke is a keen writer and filmmaker, passions that he continuously combines with his work.

Idea: Computer-based learning platform
Luke’s masterpiece would be to simulate the reality of a disaster response operation. The idea is to enhance the learning process by allowing the player to move through the typical stages of a disaster response operation.

**Mahmoud Elsisi**

Why he decided to become a Pioneer?
Mahmoud is a creative leader with proficiency in quality improvement and project management. As a Pioneer, he seeks to improve his strategies and learn new methods.

His ideas:
Business Process Re-Engineering Project: this project aims to enhance the overall quality of the medical and relief operation services. Standardization and Accreditation Program: aiming to promote, adopt and implement international best practices in quality.

**Mariya Hristrova**

Why she decided to become a Pioneer?
Mariya is aiming to craft a different model to prepare the new generations of volunteers. She’s got plenty of experience engaging with youth activities at a national level.

Idea: Humanitarian Aid 2.0
This project combines a strong sense of improvement between volunteers and beneficiaries. The idea is to organize helpful workshops where beneficiaries can become potential trainers.

**Mesha King**

Why she decided to become a Pioneer?
Mesha’s eagerness to make her island home a better place for everyone was the main reason why she joined the movement.

Idea: Health and fitness program for kids
Her idea seeks strong participation from the local schools, where attractive physical activity projects will be launched and proper nutrition plans will be taught.
**Mimmu Piirto**

**FRC Head of Development**

**Why she decided to become a Pioneer?**
Mimmu is committed to child protection and assistance, and facilitating social interaction between vulnerable families to promote development. She has a particular interest in tackling complex social problems.

**Innovation and experimental culture as a mindset**
The idea is to apply and help to improve the best projects of our beneficiaries and partners. By empowering locals, sustainability is easier to reach. Sometimes advanced technologies and complex plans are not needed, just watch and listen to what people need.

**Roza Freriks**

**Humanitarian Expert**

**Why she decided to become a Pioneer?**
Since she was 12 years old, Roza knew she wanted to follow the path of humanitarian work. By joining the Global Accelerator, she desires to closely collaborate with other Pioneers from different National Societies.

**Her idea:**
As part of a Dutch coalition for humanitarian innovation, she wants to target solutions for humanitarian challenges by leveraging the expertise of new partners. She’s eager to receive feedback not only from experts, but from other Pioneers.

**Safia Verjee**

**Disaster Risk Manager**

**Why she decided to become a Pioneer?**
Since she was a little girl, her desire was to work in an environment to help others, now, she’s living that dream. As a pioneer, she would like to explore different methods to ensure the sustainability of development interventions.

**Her idea:**
She wants to learn in depth how to approach communities and guarantee that solutions are designed with locals and not for them. Furthermore, she would like to go into innovative ideas to solve issues in road safety, urban risk reduction and youth engagement.

**Saju Shahjahan**

**Forecast-based Finance Programme**

**Why he decided to become a Pioneer?**
Saju’s research seeks to efficiently utilize the short time gap between a forecast warning and the arrival of the disaster. This investigation will result in risk reduction and better preparedness.

**Community-based flood forecast and early action**
The project will provide an accurate flood forecast to lead to early action in the community level. This will empower vulnerable people to protect their lives, crops, lands and belongings.

**Seyed Jamaldini**

**Education, Research and Technology Division**

**Why he decided to become a Pioneer?**
Seyed believes that the partnership between knowledge, humanitarian and community organizations is the most efficient way to collect funds, ideas and facts to tackle the overwhelming problems.

**His ideas:**
Household Hazard Preparedness Plan, this project involves the use of a volunteer network platform to advertise household hazard preparedness.
Why he decided to become a Pioneer?
Sinclair wants to push forward his premium initiative, The Worldwide Humanitarian Advocate Training Program, which supports young volunteers for in-depth learning and exploration of humanitarian issues.

Worldwide Humanitarian Advocate Training Program
This one-year programme targets young students helping them to learn about humanitarian issues and how to make a difference and support their friends to make a difference.

Why he decided to become a Pioneer?
Taariq is a technology expert with proficiency in data management, as a Pioneer he wants to merge his professional knowledge with innovation projects that can be replicated in his National Society.

His idea: Beneficiary mapping and Ambulance Service
The ICT Unit is combining health projects with innovative technology to offer a better response and have a better environment understanding. This project includes upgraded data collection, volunteer technology training and more efficient emergency response.

Why she decided to become a Pioneer?
Since Teona was a volunteer, she began to merge her professional skills with the humanitarian principles. Her knowledge in development, training and research supports her work in the youth management program.

Idea: Volunteer Hub
This project wants to unify volunteers all around the country. This initiative will gather together people with diverse backgrounds, all of them coordinated by Volunteer leaders that will coach them to be the future of the GRC.

Why he decided to become a Pioneer?
Thiago is a young energetic leader, who is in charge of renovating the youth program. He utilises music, dance, theatrical representation and social media engagement to attract young people to the National Society.

Some of his ideas:
“Safety Friday”, an initiative where young volunteers visit night-life leisure centers and they inform people about potential threats that can be easily prevented. “Slow driving”, a program that shows young people the principles of safe driving.

Why she decided to become a Pioneer?
Wiem is an enthusiastic member of the TRCS, as a Pioneer, she will be able to share her ideas and projects with other members, receiving direct feedback and new projects to implement in her own country.

Some of her ideas:
Promote testimonies of volunteers around the world that demonstrate how they deal with their local problems. Moreover, she wants to encourage innovative partnerships with academic institutions to solve humanitarian challenges.
“We think helping our people grow is important”

Our single greatest asset is our people. In National Societies all around the world we have talented individuals who are creative, entrepreneurial and who are trying innovative approaches in their work with communities.

“We should continually try new approaches”

The world is rapidly changing and humanitarian and development contexts are becoming more complex and demanding, at the same time resources are becoming more difficult to secure.

THANK YOU!
