Minimum Community Engagement and Accountability (CEA) actions

1. We consult communities before assessments.
2. We understand the local information ecosystem and community structures.
3. We engage communities in planning programmes.
4. We integrate CEA activities into plans and budgets.
5. We provide useful information and listen to communities using the most relevant channels.
6. We act on community feedback and use it to improve our activities.
7. We monitor if people feel informed, engaged and listened to.
8. We involve communities in evaluations and share findings back with them and colleagues.

Reflection and learning
