14 March

Mozambique (Sofala, Zambezia, Manica, Inhambane provinces)

1.85 million people are affected

602 people have died
1,600 people are injured

Source: UNOCHA and Government of Mozambique

THE WORST DISASTER in Mozambique’s recent history faced by a triple threat

1 Cyclone 170-190 km/h sustained winds (category 3)
2 Flood 3,000 square kms covered by floods
3 Cholera 5,000 cases have been confirmed so far

IFRC and Mozambique Red Cross will support at least

Staff and volunteers are working around the clock to support communities

set up a field hospital that has the capacity to support up to 150,000 people in Nhamatanda and surrounding areas as well as provide treatment for cholera

25,000 people provided with emergency relief items

To reach these people, we are appealing for CHF 31 million

200,000 people with shelter; water, sanitation and hygiene; livelihoods and basic needs; disaster risk reduction; protection, gender and inclusion as well as local Red Cross capacity strengthening

42 latrines and 308,000+ litres of clean water
